The large and splendid Museum of Natural History is now well provided for. The contents are nearly all catalogued in a manner most convenient for reference. Professor S. A. Forbes, the Curator, is also making constant additions to the specimens.

Attention is respectfully solicited to the following extract from a circular recently issued by Professor Forbes:

"The recent introduction of the natural sciences into our common-school course of study has developed a general demand for specimens in Natural History, which I am trying to supply. It is designed to furnish, in time, to every school in the State which will use and properly care for it, a small collection so selected as to illustrate in the best possible manner, the branches required to be taught. The time and resources at my command are quite insufficient for this; and, as it is a work undertaken solely for the benefit of the public schools, I make this call upon their officers and members for aid.

"The schools will encounter great difficulties in attempting to form good cabinets unaided, each for itself. Among others will be that of getting specimens correctly named, and that of securing in a single circumscribed locality, a sufficient variety to fully cover the whole field of study. It will be an easy matter, however, for the teachers and pupils of the State to collect and send to this Museum, in one or two seasons, a sufficient number and variety of specimens liberally to supply all our schools; and these I will undertake to name, select, arrange and re-distribute in such a manner as to give to each school participating in the work, the benefit of a judicious selection from the whole number sent by all.

"Good specimens in all branches of Natural History will be acceptable, and directions for preparing and shipping them will be sent upon application."

Admission.

This Institution is intended for the training of young persons of both sexes for teachers in the Schools of Illinois.

Students seeking admission to the University should make application to the School Superintendent of the county in which they reside. They are required—

(1.) To be, if males, not less than 17, and if females, not less than 16, years of age.

(2.) To produce a certificate of good moral character, signed by some responsible person.

(3.) To sign a declaration of their intention to devote themselves to School-teaching in this State, in form as follows:

"I hereby declare my intention to become a teacher in the schools of this State; and agree that, for three years after leaving the University, I will report in writing to the President thereof, in June and December of each year, where I have been, and in what employment."

(4.) To pass a satisfactory examination, before the proper officer (County School Superintendent,) in Reading, Spelling, Writing, Arithmetic, Geography, and the Elements of English Grammar.

Extract from the Normal University Act.

SEC. 7. Each County within the State shall be entitled to gratuitous instruction for one pupil in said Normal University, and each Representative District shall be entitled to gratuitous instruction for a number of pupils equal to the number of representatives in said district, to be chosen in the following manner: The School Superintendent in such county shall receive and register the names of all applicants for admission to said Normal University, and shall present the same to the County Court, or, in counties acting under township organizations, to the Board of Supervisors; which said County Court or Board of Supervisors, as the case may be, shall, together with the School Superintendent, examine the applicants so presented, in such manner as the Board of Education may direct, and from the number of such as shall be found to possess the requisite qualifications such pupils shall be selected by lot; and in representative districts composed of more than one county, the School Superintendent and County Judge, or the School Superintendent and Chairman of the Board of Supervisors in counties acting under township organization, as the case may be, of the several counties composing such representative district, shall meet at the Clerk's office of the County Court of the oldest county, and from the applicants so presented to the County Court or Board of Supervisors of the several counties represented, and found to possess the requisite qualifications, shall select by lot the number of pupils to which said district is entitled. The Board of Education shall have discretionary power, if any candidate does not sign and file with the Secretary of the Board a declaration that he or she will teach in the public

schools within this State, in case that engagement can be secured by reasonable efforts, to require such candidate to provide for the payment of such fees for tuition as the Board may prescribe.

[AMENDED, FEBRUARY, 1861.]

SEC. 4. Each County in this State shall, hereafter, be entitled to gratuitous instruction for two pupils in said University, to be selected as provided in Section Seven of the Act to which this is an amendment.

If any County or Representative District neglects to make appointments, the President of the University is, by a resolution adopted by the Board of Education, authorized to fill the vacancy by appointing any person of proper age and qualification. Every such person must pass, before the President, an examination similar to that required before the County Superintendent in other cases.

Suggested Form of Certificate.

I hereby certify that I am well acquainted with....., and know him [or her] to be a person of good moral character.

In case the School Superintendent is not able to make the above certificate himself, something like the following endorsement should be appended by the School Superintendent :

I am well acquainted with....., who signs the above certificate, and believe him to be an entirely reliable man ; and, so far as I know and believe, the above-named applicant is a person of good moral character.

Model School Department.

THE MODEL DEPARTMENT was established in order that there might be a school exhibiting the best methods of teaching, discipline, and classification, which the Normal Students should visit, and in which they should take part as instructors. Every effort will be put forth to make this, as far as may be, a perfect school, conducted upon the best methods, and showing the most wholesome results.

It is intended that the course of study in its several Grades shall embrace all that belongs to a thorough education, from the elements up to a preparation either for College or Business. For the lower classes, a system of Object Lessons has been prepared with the greatest care. The design of this is to awaken the perceptive faculties, and to form a habit of accurate observation. Children thus trained not only make more thorough scholars, but also more practical men and women.

This Department is divided into three Grades—the High, Grammar, and Intermediate and Primary Schools. Each of these is under the direct charge of an accomplished and efficient Principal, who is assisted in part by permanent teachers, and in part by the pupil-teachers from the Normal School. The work of the latter is subjected to the most rigorous supervision, and suggestions are constantly made for their guidance and improvement.

The Classical Course is very thorough, and is much more extended than that of some Colleges. Our young men enter Harvard and Yale without conditions.

The accompanying plans of study will give a general idea of the subjects to be pursued in the several Grades, and the time allotted to each. It will be observed that two distinct courses are arranged for the High School: one to prepare students for College, and the other for general Business. The two, however, are made to blend whenever practicable.

The only requisites for admission are a good character, and a tuition fee of thirty dollars per year in the High School, twenty-five in the Grammar School, and twelve in the Intermediate and Primary School. Pupils, on being examined, are classed according to their attainments.

Boys and girls from abroad may be confidently intrusted to the care of the Principals; and besides the monthly report of scholarship and deportment at school, which is to be sent to all parents, will be included, if desired, a careful statement of each pupil's general deportment, and of the manner of spending leisure hours.

Throughout the entire course in Spelling, let original sentences be composed and written by the pupil, and accurately capitalized and punctuated. In short, this should be made an exercise in thinking and accurate writing.

Attention is given to Morals and Manners, as occasion may suggest or necessity require.

Daily exercises in Singing—both by reading and by rote, and in Gymnastics.

Additional Information.

Thorough DISCIPLINE will be enforced in every department of the University.

Experience has shown it to be very necessary that a perfect understanding should exist between the President and those with whom the students board, in respect to the habits and conduct of students in their rooms. This will, accordingly, be carefully attended to.

BOARD can be obtained in good families for about \$4.00 a week, exclusive of fuel, lights and washing; when these are furnished, except washing, the charge is a little more.

The expense of board is reduced about one-half by boarding in clubs, and by self-boarding. Rooms can be secured, at reasonable rent, in the village.

The following may be considered a near approximation to the necessary EXPENSES for one year, exclusive of pocket-money, apparel, traveling, and board in vacation:

Board, 40 weeks	from \$80 00 to \$160 00
Washing,	" 15 00 " 30 00
Books and Stationery	" 5 00 " 15 00
Total	\$100 00 \$205 00

TUITION IS FREE in the Normal Department.

Students are advised to bring with them such books as they may have, but not to purchase others until they arrive at the University.

The APPARATUS is excellent in quality, and sufficiently ample for the ordinary purposes of illustration.

The DIPLOMA of the University is conferred upon all those who creditably complete its full course of study and practice.

A CERTIFICATE is granted for the successful completion of one year's work; and another for that of two years.

There are two LITERARY SOCIETIES, the Philadelphian and Wrightonian, each of which has a well-selected library.

The MUSEUM and LIBRARY formerly belonging to the Illinois Natural-History Society are in the University building, and to these the students of the University will have access, under suitable restrictions.

AN ADDITIONAL COURSE HAS BEEN ARRANGED TO MEET THE DEMANDS OF "THE NEW SCHOOL LAW." ALL THE STUDENTS HAVE AN OPPORTUNITY TO TAKE THIS COURSE.
